

# ACKNOWLEDGEMENT

It is our proud privilege and duty to acknowledge the kind help and guidance received from several persons in preparation of this report. It would not have been possible to prepare this report in this form without their valuable help, cooperation and guidance.

First and the foremost, we wish to record our sincere gratitude to Management of this college and to our beloved Professor, **Dr.B.R.Patagundi**, Principal, S. G. Balekundri Institute of Technology, Belagavi for his constant support and encouragement in preparation of this report and for making available library and laboratory facilities needed to prepare this report.

Our sincere thanks are also due to **Dr. B. S. Halakarnimath**, Head, Department of Computer Science and Engineering in S.G.B.I.T. for the valuable suggestions and guidance through the period of preparation of this report.

We express our sincere gratitude to our beloved guide, **Asst. Prof. Shaheen Mujawar** in the Dept. of Computer Science and Engineering, S.G.B.I.T., Belagavi for guiding us in investigations for this project and in carrying out mini project work. Our numerous discussions with her were extremely helpful. We hold her in esteem for guidance, encouragement and inspiration received from him/her.

Last but not the least, I wish to thank my family members, for financing my studies in this college as well as for constantly encouraging me to study engineering. Their personal sacrifice in providing me this opportunity to learn engineering is gratefully acknowledged.

## **ABSTRACT**

From a student's perspective, placements can bring a wide range of benefits and opportunities. Training and management of placement is a crucial part of an educational institution in which most of the work is done manually. Manual system in colleges requires a lot of manpower and time. With this project, we aim to develop an app to solve this issue.

The project is aimed at developing an application for the placement department of the college. The system is an application that will be accessed and effectively used throughout the organization with proper login enabled. It can also be used as an application for the Placement Officers in the college to manage the student information about placement thus reducing the manual work and consuming less paperwork.

**Keywords: Training, Education, Placement**

# CONTENTS

## Chapter 1: INTRODUCTION

- 1.1 Motivation .....
- 1.2 Proposed System .....
- 1.3 Related Work .....

## Chapter 2: REQUIREMENTS ANALYSIS AND SYSTEM SPECIFICATION

- 2.1 Software Requirements Specification .....
- 2.2 Hardware Requirement Specification.....

## Chapter 3: SYSTEM DESIGN

- 3.1 Detailed Design .....
- 3.2 Application Design.....
- 3.3 User Case Diagram.....
- 3.4 Firebase.....

## Chapter 4: IMPLEMENTATION AND TESTING

- 4.1 Introduction to Programming Languages, IDE's, Tools & Technologies .....
- 4.2 Security and Permissions in Android .....
- 4.3 Test Plan and Test Activities .....

## Chapter 5: RESULTS AND DISCUSSIONS

- 5.1 Screenshots .....

## Chapter 6: FUTURE WORK .....

## CONCLUSION .....

## Bibliography .....
